TRAVEL HISTORY

Name: _____

Immigration requires you to provide a record of your travel history for the past 10 years OR since your 18th birthday, whichever is most recent. Please provide a record of all travel history for any trips you have taken outside of your country of citizenship AND/or current country of residence. For example, if you are working in Canada, you do NOT need to record travel to Canada as it is your current country of residence.

Please record as much information as possible. Citizenship & Immigration Canada requires DAY/MONTH/YEAR. If you cannot remember the exact day, provide your best estimate of the day. Please let us know if you think you may be missing some trips taken.
